This is the ultimate lid organizer. The adjustable pots and pans organizer from Yamazaki comes with seven removable dividers and a support bar to keep the pot handles lifted. It also has three different height options to accommodate your cabinet space as well any pots and pan you may store underneath. There are also indentations for the lids to stay in place. This customizable organizer is a great way to store pots, pans, and their accompanying lids all in one place.

Everyone's kitchen space is different, so there's no one-size-fits-all solution. "Honestly, there is not an organizer that I would consider 'the best,'" says Smith. "The best is really what works for the space given and what maximizes efficiency."

That being said, we'd argue that this is the best overall lid organizer for *most* kitchens. If you're looking for a quick, easy, and effective organization solution for your kitchen, this is it.

Material: Steel, ABS resin | **Size:** 20.47 x 14.96 x 8.07 | **Dividers:** 7

- Indentations accommodate lid handles
- Fits well in small spaces

What Could Be Better

- Doesn't hold as much as others on our list

Pan lids can [take up a lot of space in the pantry](#) and can even be damaged when not properly stored. This pot lid organizer from YouCopia is adjustable and has seven steel dividers. It will help keep your pan lids safe and secure and make it easier to see each one. It has a strong base and non-slip feet to keep it in place. The relatively small footprint fits most standard-sized pantries and cabinets.

Material: Alloy steel, plastic | **Size:** 11.5 x 5 x 7.5 | **Dividers:** 7

plastic lids because it includes eight removable dividers that you can rearrange to organize lids of all shapes and sizes.

The entire unit is expandable, so you can extend it to your desired length, add the dividers how you like them, and load it up with lids. And it has handles so you can easily pull it in and out of your cabinet when you're looking for a specific lid.

This organizer is also great for keeping lids and containers separate. "I strongly advise storing your food storage lids and containers separately," says Clouatre. "Sometimes people have a tendency to store them with the lid on. Even when we think they are clean and dry, sometimes they're just not, and sealing that moisture in it encourages bacteria growth and smells to linger."

Material: BPA-free plastic | **Size:** 13.5-22.5 x 5.4 x 10.6 inches | **Dividers:** 8

storage with five built-in dividers. You can use it in your cabinets or on your countertop.

For only \$10, this Brightroom organizer has a steel construction with a white finish for a sleek look that blends in seamlessly in any space. “Brightroom is easily accessible and sturdy,” says Smith. You can pair other affordable storage organizers from the Brightroom line with this one, like this [pan organizer](#) or this [cabinet shelf](#). Just keep in mind that the dividers cannot be adjusted, and the width of the organizer cannot be extended.

Material: Steel | **Size:** 13.5 x 4.75 x 5.5 inches | **Dividers:** 5

- Frame extends by up to 22 inches
- Fits large items like pots and pans
- Adjustable dividers
- Indentations for handles

What Could Be Better

- May take up too much space in smaller cabinets and drawers

This Joseph Joseph expandable organizer holds it all: pots, pans, lids, and more. It has seven wire dividers, each of which can be adjusted to fit lids and pans of different sizes.

The frame can be expanded from 30.6 to 56 inches, so it can fit a variety of drawers. This customizable divider can be used to store everything from large pots to slender lids.

Material: Plastic, steel | **Size:** 30.6-56 x 14.7 x 20.4 | **Dividers:** 7

- Easy, tool-free installation
- Can mount on doors, walls, or inside cabinets
- Includes four lid holders

What Could Be Better

- Only suitable for lids 6 to 9.5 inches in diameter

This is another great option from The Container Store. The set of four plastic pan lid holders can be used to mount lids on your cabinet walls or doors. Plus, they come with strong 3M adhesive to keep the lids secure on the wall without requiring any drilling, making this a great option for renters. It's simple to install and will make organizing your lids easy. And at only \$12, it's also a great deal.

Material: Soft ABS plastic | **Size:** 7.5 x 1.5 x 1 inches | **Capacity:** Includes 4 lid holders

[Jump to a Section](#)

- Affordable

What Could Be Better

- Lids are stacked directly on top of each other, so you can't see the tops

If, like us, [you can never have too many tumblers](#), this is the organizer for you. This cup lid holder allows you to organize your tumbler lids easily. The stand holds up to 12 lids and fits lids from various popular brands, such as Yeti, Stanley, and Hydro Flask—any lid with a 0.5-inch opening will fit.

It has a clean design that fits well on any kitchen counter at just 4.7 inches wide. The best part is that it's only \$7, or you can get a set of two for \$13.

Material: Steel | **Size:** 4.7 x 12 inches | **Capacity:** 12 lids

The Bottom Line

Our Best Overall pick, the [Yamazaki Tower Adjustable Pots and Pans Organizer](#), comes with removable dividers that can be adjusted to fit

Tips for Choosing the Right Lid Organizer

Type

SKIP TO CONTENT

Jump to a Section

an over-the-door organizer or wall-mounted organizer would be best,” says Smith. “If space allows, then a drawer or shelf organizer would be ideal. It is essential that organization tools suit the space.”

Size and Capacity

The size of the lid organizer you purchase also depends on the amount of space you have. Some of the organizers on our list, like the [YouCopia StoraLid Expandable Container Lid Organizer](#), are expandable, which helps maximize space.

It’s also important to pay attention to the capacity of the lid organizer. And if your pot and pan lids are heavy, you’ll want to ensure your organizer can hold their weight, especially for wall-mounted organizers.

Material

The material of your lid organizer may depend on the items you already have. You don’t want the organizer's material to scratch or bend your lids. Most of the lid organizers on our list are plastic, steel, or metal, which is typically safe

number of lids or many different sizes.

Questions and Answers

Where should you put a lid organizer?

Placement can make a big difference when it comes to efficiently organizing. You should consider not just which lid organizer to purchase but also where to put it. “Locating a lid organizer near the containers that the lids go with is essential,” says Smith. “So, based on the space available, the type of lid organizer can be determined.” The lid organizers on our list can be placed on counters, inside cabinets and drawers, wall-mounted, or hung on doors.

How else can you use a lid organizer?

Get the most bang for your buck by using your lid organizer in multiple ways. “Another kitchen use for shelf organizers is to file cookie sheets, cooling racks, baking pans, and platters on them,” says Smith.
